SUMMER SCHOOL BULLETIN MAKES EARLY APPEARANCE

The bulletin for the University Summer School starting July 5 and continuing until August 12 has made its appearance. Forty courses of instruction carrying credit toward Bachelor's and Master's degrees are offered. The fifth session of the Marine Zoological Laboratory will run concurrently with the Summer School. The American Institute of Co-operation with national authorities discussing important agricultural marketing problems will be in session on the campus from July 18 to August 12. Besides the University faculty as teaching staff during the summer, there will be other specialists, including: William John Cooper, Augustus O. Thomas, Charles S. Meek, Herbert A. Miller, Guy M. Whipple, and Alexander Green.

Burglars Enter S. A. E. and T. U. O.

Cash and Many Valuables Stolen Friday Morning

Investigation Now Being Conducted by Police Chief Bourgouin and Sheriffs McDaniel and Willey —No Clues Left on Scene

The Sigma Alpha Epsilon and Theta Upsilon Omega fraternity houses situated on Madbury road were entered early Friday morning, January 8, and robbed of cash and valuables totalling nearly \$1,000 in value. Chief of Police Louis Bourgouin, aided by High Sheriff Andrew McDaniel and Deputy Sheriff Mark Willey of Strafford county, has been engaged for the past week upon the case. To date they have unearthed no substantial evidence as to the identity of the burglar or burglars. They are of the opinion, however, that the double robbery was accomplished by two persons as there was a considerable range in the selection of articles stolen at the different houses. Chief Bourgouin received a communication from the police of Hanover stating that a fraternity on the Dartmouth campus was also robbed recently and suggesting a policy of cooperation in running down the guilty party who probably is a traveling burglar.

The robbery was first discovered about 7 o'clock Friday morning, when the various fraternity members got up to find their clothing thrown about their rooms. Immediate investigation disclosed that practically every person's clothes had been deprived of money, fountain pens, watches, pins, etc.

The man on fire-watch at the Theta Upsilon Omega house, when awakened at 2:45 a. m. by a brother, had not heard any suspicious noises which might indicate the presence of burglars. Cash aggregating up to \$225 was taken from this house along with five watches, valued at more than \$60 apiece and several fountain pens. Robert Stark, '33, was robbed of \$114 which he had in a drawer in his room. The fact that the robber took only money and one overcoat at the S. A. E. house leaving other valuables untouched and that he searched only their clothes and desks has led the police inspectors to believe that more than one person participated in the robbery. In both houses the guilty ones confined their activities to the second floor where the study rooms are situated, avoiding the third floor where at least 30 students were sleeping. They gained entrance through open doors.

Officer Bourgouin is certain that the break was committed by individuals who are well acquainted with the room plan of both houses for the break was accomplished in less than a half an hour. This is the first robbery of any seriousness upon this campus for several years.

GEORGE AND PHILLIPS, INC.
TAKEN OVER BY HASCO SHOP

Ed Haseltine, '31, and Don Sweeney have taken over the clothing store formerly operated by George and Phillips, Inc. A letter to THE NEW HAMPSHIRE, advising the general public of this transaction is signed by the Haseltine and Sweeney company. The store will be known in the future as the Hasco Shop. The announcement of an introductory sale is to be found on another page of this issue.

Alpha Nu Charter Presented by Teke

Delta Sigma Chi Becomes Thirty Seventh Chapter

Installation Ceremonies Held on January 1, 2, and 3—Active Membership Now Stretches from Coast to Coast and Numbers Nearly Six Thousand

On Friday, Saturday, and Sunday, January 1, 2, and 3, Delta Sigma Chi local social fraternity was installed as Alpha Nu chapter of Tau Kappa Epsilon completing the line of trans-continental chapters which now stretch from the Atlantic to the Pacific and bringing the total active membership enrollment to nearly six thousand. Alpha Nu, with 38 charter members, became the thirty-seventh chapter of Teke which was founded in 1899 at Illinois Wesleyan, Bloomington, Illinois, under the title of "The Knights of Classic Lore."

Grand Prytanis Eugene C. Beach, Grand Grammateus Harold P. Flint, New York-New Jersey Province Hegemon Willis B. Rice, Alpha Kappa Prytanis Donald Lansing, and Henry Clapp of Sigma chapter and a member of the University faculty composed the installation team with Harold P. Flint acting as directing officer.

The Friday morning and afternoon sessions were taken up by lectures, round table discussions, examinations, and the exemplification of the pledge degree. The first session was opened by the officers of Delta Sigma Chi and the gavel was presented by President John B. MacLellan to directing officer Flint who in turn introduced the other four members of the team.

Smoker Held at House

At the chapter house on Friday night an informal smoker was held at which the members of the installation team were introduced socially to the chapter. Several reels of campus movies were shown and short skits were presented by undergraduate members. Paul H. Blaisdell, '30, acted as Master of ceremonies.

Saturday morning was again taken up by lectures, demonstrations, and group discussions. At a formal election the following men were chosen to occupy the positions of the first officers of Alpha Nu chapter: Prytanis, John B. MacLellan, '32; Epi-Prytanis, Curtis B. Sawyer, '34; Grammateus, Murray H. Sargent, '32; Cry-sopholos, Preston E. Rolfe, '32; Hegemon, Ernest G. Thorin, '32; Histor, Gordon F. Tolman, '32; Hypophetes, (Continued on Page 4)

PROFESSOR DUNCAN ATTENDS MEETINGS

Goes to Washington Over the Holidays to Attend Annual Meeting of the American Sociology, Economic, and Statistical Societies

Professor Hannibal G. Duncan of the Sociology department represented the University this year at the combined annual meeting of the American Sociological Society, the American Economics Society, and the American Statistical Society held at Washington, D. C., December 28 to 31. Professor Duncan has spoken at three of the annual meetings in the last five years which is a distinguished privilege. He did not address the societies this year, however. Professor Duncan reports that the meeting was very well attended with representatives of nearly all the colleges in the country, with the exception, perhaps, of northern New England of which he was the only representative. This year there were two foreign representatives; one from the University of Pozan, Poland, and the other from the University of Berlin, Germany. L. L. Bernard of Washington University of St. Louis was elected president of the combined societies for the coming year.

Officers Elected for Outing Club

Annual Winter Carnival Plans Nearing Completion

Ice Carnival, Including Figure Skating Events and Races, Already Planned for—Other Features to be Announced in Near Future

The returns of the Outing club elections held on Saturday, January 9, are as follows: President, Al Bertelsen, '33; vice-president, Malcolm Beverstock, '33; secretary, Florence King, '33. Club directors for the year will be coach Paul Sweet, Stewart Chaloner, '33, and Harvey Clark, '33. Professor A. W. Johnson will continue in office as treasurer and general advisor.

The first project that confronts these newly elected officers is the management of the University's annual Winter Carnival, which is scheduled to take place over the three-day period of January 28 through 30.

The Outing club plans to hold the usual Ice Carnival on Thursday, January 28, subject, always, to weather conditions which in other years have not been exceptionally good. In spite (Continued on Page 3)

C. N. Elliott Elected to High Position

N. H. Graduate Chosen To Lead Phi Mu Delta

Fraternity in Conclave Selects Alumnus as National President—Prominent in Campus Activities as an Undergraduate

Charles Ned Elliott, of Contoocook, who was recently chosen as national president of Phi Mu Delta fraternity has, perhaps, the most enviable record at the age of 24 that can be claimed by any contemporary alumnus of the University.

Judging by the rapidity with which he has gained prominence from the time of his undergraduate days, an assertion that his career is only started would be justifiable.

C. N. Elliott

Elliott was a recipient of the Bachelor of Arts degree from New Hampshire in 1928 following four years of innumerable activities. He did graduate work in history for two years, spending one summer at Columbia University. In June, 1930, he was awarded the Master of Arts degree by his Alma Mater.

He was teacher of history at Montpelier, Vermont, High school during 1930-31, and has served as president of the alumni board of control for the local chapter of Phi Mu Delta social fraternity since 1929. He joined the University of New Hampshire faculty last September as an instructor in sociology.

Elliott was selected as a candidate for the Rhodes Scholarship in the fall of 1928. During his freshman year at college, he played basketball and baseball. His merits began to be re- (Continued on Page 3)

Infirmary Opens Early in April

Plastering, Marble and Tile Work Now Complete

Interior of Building Retained at Constant Temperature of 70 Degrees Since First Coming of Cold Weather

Present indications are that the new Charles Harvey Hood infirmary will be entirely completed and ready for occupancy within a period of six to eight weeks, or approximately the first of April.

The plastering of the building, which has been going on for some weeks, will be completed by the end of this week, as will also the marble and tile work. The completion of these phases of construction will mark the end of the preliminary work, and after the plaster has finished drying, which will require a period of about two weeks, conditions will be ready to start the interior wood work. It is expected that this part of the finishing will take another two weeks, after which painting will be begun.

The arrival this week of the ornamental iron stairs, which have held up construction somewhat, will permit the finishing of the entrance lobby, the lounge room, and the dining room. The heating system has been installed, including the exposed and concealed radiators, and the lighting fixtures will be hung as soon as the painting has been completed.

The building has been heated since the beginning of cold weather, the temperature having been held up to 70 degrees in order that the plaster may dry properly.

In the spring the ground work will be completed. The chief characteris- (Continued on Page 4)

LAZURE APPOINTED AS AID TO SWEET

President Lewis Appoints Popular Last Year's Graduate for New Berth—Will be Aid to Winter Sports Team

President Edward M. Lewis has appointed Albert C. Lazure, '31, assistant coach of winter sports for the season of 1932. Lazure, who is now in the graduate school, was very prominent in athletics and also held many high offices in undergraduate organizations. He was president of the class of 1931 in his senior year, president of the Scabbard and Blade, president of the Intercollegiate Winter Sports Union, president of the New Hampshire Athletic Association, president of Pi Kappa Alpha fraternity his senior year, vice-president of the Outing Club, and is Intercollegiate two-mile Snow Shoe champion. He made four letters in winter sports competing in the snow shoe race and in the slalom, downhill ski race, cross country ski race, and ski jumping. He made his numerals and finished in the famous four man tie for first place in the N. E. I. C. A. A. freshman cross country championship in his freshman year and won two varsity letters in that sport. He was also a numeral and three letter man in track, running the one mile, half-mile and 440.

Intramural Meets to Commence Soon

Nearly All Fraternities Entered in Competition

Boxing, Bowling, Hockey and Winter Sports are to be Included in Competitive Program for This Year

January 18 is the day set for the opening of the winter intramural athletic program when the hockey and boxing contenders swing into action; bowling and winter sports will follow later in the term.

This year the competition in hockey will be divided into three leagues instead of two as in years past. The object of this change is to rush the season as fast as possible so that postponed games may be played off and the finals settled while weather conditions are at their best. Nearly all fraternities have entered the race and keen competition is in sight for the honors this year. Because of the fact that there are three leagues, there will be three teams to play off the finals. The games will be played as usual in (Continued on Page 3)

Tekes Lead Contest for Osgood Trophy

Phi Alpha Fraternity Heads Fall Term List

General Fraternity Average 1.825 Points Higher Than for Corresponding Term in 1930—Phi Mu High Sorority

Tau Kappa Epsilon heads the list of fraternities in competition for the Osgood scholarship cup for the fall term with an average of 77.95. Owing to the ineligibility of Phi Alpha fraternity, with an average of 80.16, to claim the cup for last term, Tau Kappa Epsilon now holds the lead in fraternity scholarship with a capture of the Osgood cup last term and the two preceding years to its credit. The fraternity winning this trophy three years in succession will retain it as a permanent possession.

A very significant fact is that the general average of the fraternities was 1.825 points higher last term than the corresponding term in 1930. Comparing the same two terms, we find a difference of 5.41 points between the averages of the fraternities heading the lists and a difference of 1.62 points between the last place fraternities, both differences being in favor of last term's average.

Phi Mu Leads Sororities

In the sorority scholastic competition last term the Phi Mu sorority emerged victorious with an average of 78.85. Alpha Chi Omega follows in next place with an average of 78.54.

The average for all groups for the fall term is as follows: Phi Alpha 80.61, Tau Kappa Epsilon 77.95, Theta Kappa Phi 75.2, Phi Delta Upsilon 74.72, Theta Upsilon Omega 74.33, Phi Mu Delta 74.32, Lambda Chi Alpha 73.84, Delta Epsilon Pi 73.68, Alpha Gamma Rho 73.44, Theta Chi 73.29, Alpha Tau Omega 73.17, Kappa Sigma 72.87, Alpha Kappa Pi 72.23, Sigma Alpha Epsilon 72.22, Pi Kappa Alpha 71.26, Phi Mu 78.85, Alpha Chi Omega 78.54, Kappa Delta 78.47, Theta Upsilon 77.67, Alpha Xi Delta 76.3, Chi Omega 74.48, Phi Lambda Sigma 73.11.

ANNOUNCEMENT

Prof. E. Barton Hills, of the English department, faculty advisor of the Poetry club, announces that elections to membership in the club will be held in the near future. Candidates for membership should submit samples of their work to Mr. Hills or the following members of the club, George Abbe, Robert Griffith, Ruth Dodge, Barbara Barnaby, Theodora Libby, Shirley Barker, before Thursday, January 14.

C. DOUGLAS BOOTH TO LECTURE HERE

Carnegie Foundation to Sponsor Lectures on Subjects Relating to World Peace—International Relations Club Procures Discussions of Important Issues

On Monday, January 18, the International Relations club of the University will entertain a prominent lecturer, C. Douglas Booth, whose services are made possible through the Carnegie Foundation which sponsors his visits to colleges and universities throughout the country.

The club will hear this speaker in an afternoon lecture, given for club members only, on the affairs of the Permanent Court of International Justice. In the evening, the general student body will have an opportunity to hear him on the disarmament proposition.

Mr. Booth has spent much time in England and on the Continent, and has consequently acquired valuable material of particular interest to all students of international relations. He has published various political papers and pamphlets both here and abroad.

Debating Season to Open at Maine

Ayers and Stearns Lead Varsity Forensic Teams

Squad Gets into Trim Under Direction of Prof. Cortez to Meet Rivals of Coming Season

The opening date of the varsity debating team takes place on February 18 and takes the team to Orono, the home of the University of Maine. In all probability, William Stearns and Robert Ayers will uphold the affirmative of the question, RESOLVED: THAT CONGRESS SHOULD ENACT LEGISLATION PROVIDING FOR THE CENTRALIZED CONTROL OF INDUSTRY.

The high-lights of the debating season bring the New Hampshire men into battles of words with Boston college, New York university, and Dartmouth, the last two taking place in Durham. Other debates bring the men into contact with Clark university, Bowdoin, Colby, Tufts, Springfield, Emerson, and possibly Rollins.

Being on scholastic probation, Waldron White will be unable to participate. The remaining squad of eight men has started putting into shape its material, and under the coaching of Professor Edmund A. Cortez look confidently forward to the coming season.

Other veteran material besides Ayers and Stearns includes Robert Griffith and Joseph Schwartz. The other members are Gordon Thayer, F. Courtney Williams, Lawrence W. Henderson, and Romeo Bucknam.

CARD OF THANKS

The Woman's Club of Durham and the Woman's Guild of the Community Church wish to thank all those who contributed to the Christmas baskets. They are especially grateful to the Civic Committee of the Woman's Club. Eleven baskets in all were given to the needy families of the community and were greatly appreciated.

STUDENTS AND PEACE

The approach of the next Geneva Disarmament Conference, scheduled for February 1932, should meet with a growing interest on the part of the general population throughout the world, and particularly of university and college students of Europe and America. This interest of American college students should be accentuated by President Hoover's recent appointment of a college president, Miss Mary E. Wooley, head of Mt. Holyoke college for 31 years, as the woman member of the United States delegation.

Although student participation in this conference is limited to interested spectatorship, American college men and women can do their share towards gaining the desired ends of the conference by demanding what they have already voiced in a recent national collegiate straw vote on disarmament. This vote, designed to get the student reaction towards world disarmament, was conducted by the Intercollegiate Disarmament Council among seventy colleges in all parts of the country, including Yale, Dartmouth, Amherst, Williams, Radcliffe, Wellesley, Southern Methodist, and Occidental.

The poll shows a very strong feeling against the compulsory feature of military training in colleges, eighty-one per cent. being opposed to compulsory drill. On the other hand, only thirty-eight per cent. favored eliminating military training from all colleges. Students in institutions with compulsory training voted sixty-two per cent. against compulsion, those colleges with elective drill eighty-three per cent., and schools with no drill eighty-four per cent. Seventy-four per cent. of the 24,000 votes cast supported American adherence to the Root Protocols.

It is hoped that the student body of this University may have an opportunity, just before the coming Geneva conference meets, to express its opinion on this highly important question through a ballot similar to that found in the Christian Work column of this edition.

E. E. A.

GRADUATE GROUP DEALS WITH SOCIAL RESEARCH

It was recently announced that this year's graduate seminar in sociology will deal largely with Social Research, and more especially with the various social attitudes in social relationships. This class has been divided to meet more adequately the interests of a small but well qualified graduate group of major and minor students devoted to the study of the foundations of behavior and the recent concepts of how to interpret human behavior. This research in the graduate group will of course be largely explorative, due to the status of the work in its closely related fields such as biology, psychology and philosophy.

Alumni Notes

Alumni of New Hampshire who are in need of a vacation and who are interested in winter sports should make plans to attend the annual Winter Carnival to be held on the campus January 28, 29, and 30. New Hampshire, as usual, has a winter sports team which compares favorably with any other college team. New Hampshire won the Harding Trophy during the recent college week competition at Lake Placid and Eddie Blood, '33, captured the Marshall Foch trophy for his outstanding performance in the ski jumping. Weather conditions should be perfect for the Carnival. There is already snow on the campus and more scheduled to arrive, so pack your bag with warm clothes and come to Durham for the Winter Carnival.

The Agricultural Alumni of New Hampshire will meet in Concord on Thursday noon of this week. H. O. Page, Alumni Secretary, will be the speaker. Lawrence A. Carlisle, '08, has charge of the entire meeting.

'11—F. Michael Hoben was a recent visitor to the Alumni Office. Mr. Hoben lives at 43 Hamilton Place, Douglaston, L. I., N. Y.

'14—Wilfred "Cupe" Osgood and Leon Glover, '23, attended the meetings of the American Society for the Advancement of Science and the American Society of Economic Entomologists held in New Orleans during the Christmas holidays. At the meeting of entomologists, Morris A. Stewart, '24, read several papers. He is in the Department of Biology at Rice Institute, Houston, Texas. After the sessions were over, Glover went to Ames, Iowa, where he is to study for the next six months at Iowa State college toward a doctor's degree. He is on leave from the Experiment Station of the University where he has been doing experiment work.

'25—Dr. Frederick S. Gray has finished his internship at the Post Graduate Hospital in New York City. We don't know where he is going to practice but we hope it's in his home town, Portsmouth.

'26—Frank Hussey was married some time ago to Miss Ethel Swanson of Brooklyn, New York. They are living in New York City.

'29—Charles E. Batchelder is working for a master's degree in the School of Business at Columbia University. He lives at 604 West 114th street, New York City.

'29—John K. Hatch is working for the New York Telephone Company in New York City and lives at 7401 Fourth avenue, Brooklyn, New York. In the same apartment with him are Kenneth Wheeler, '30, and James "Lib" Littlefield, '26.

'30—Dorothy Johnson is still teaching school in Amherst, N. H.

'28—Ruth Holt, Ex-'30 was married to Scott Appleton on December 26, 1931. Scott works for the New England Telephone and Telegraph company in Providence, R. I., and they live at 10 Frances street, Auburn, R. I.

'30—Marion Smith is reported working in Newark, New Jersey, but we don't know what at.

'30—Warren Gee, Horace (Pat) Tarr, and John Arren are holding down jobs with the American Telephone and Telegraph company in New York City. John recently changed his address and it is now 645-55th street, Brooklyn, New York.

ex-'30—James Mullane is also working for the American Telephone and Telegraph company in New York City.

'30—Morris Marsh is working for the Western Union in New York City.

STEPHEN N. MORSE, '16

Alumni of New Hampshire will be grieved to learn of the death on January 1, 1932, of Stephen Noyes Morse, '16. He passed away at the Pembroke Sanitarium in Pembroke, after more than five years of suffering from tuberculosis.

Stephen Morse entered the University in 1912 from Ashland, where he attended the New Hampshire Literary Institute. He took the electrical engineering course in college and was widely known on the campus for his inventive ability which enabled him to salvage ancient and battered cars for the students. This ability showed itself many times later when he became an engineer for a large corporation. While in college he was a member of the Zeta Epsilon Zeta fra-

by Ed Dawson

We're tired!

And our sympathy goes to every fraternity man on campus who has lived through the ordeal of rushing season.

The campus record for lack of sleep is recorded as five hours in three days. And there are many who have come within yawning distance of it during the past week.

If we could only convince the faculty of the importance of rushing!

Durham dreams on through the political and social strife of the world, but during rushing season it suddenly becomes intensely alive and anxious, and innocent freshmen are given more attention than is ever afforded international problems.

We offer no objection, however, for it is a decided relief to learn, after much justified doubt, that Durham is able to become acutely interested in anything.

Happily, fraternity rushing is not the worst vice known to man; particularly as the end sought is, in most cases, for the social well-being of all concerned.

And that being said, we cautiously retire to a corner and devote our time to meditation on the evils of sororities.

What a freshman might say:

We hate fraternities, so we do;
 They're so aristocratic.
 And when a Brother articulates,
 He's so gosh darn piegmatic!

Unemployment becomes a greater problem as the campus mud-diggers put away their shovels for another year.

"..... and Ballyhoo begat Hooley
 and Hooley begat Slapstick.....
 and the Golden Bull became as an angel."

The slowly-melting snow reminds us that Carnival week-end is very near.

Invitations for Carnival ball and the fraternity house-dances are, therefore, in order.

This being leap year, the co-eds will, no doubt, be glad to do the inviting.

And to foot the expenses?

We wonder if the same people who attended the Mil Art ball together will appear together at the Carnival ball.

Mask and Dagger launches into a new season with the rehearsal of Isham's "Three Live Ghosts."

The cast includes such noble athletes as Bob Augustinus, Jim Slack, and Red Hayes.

Jim has a Yorkshire brogue that would make the Duke of York blush.

The women folks are Anne Meader, Dorothy Bond, and Pat Rowley—all of whom have excellent parts.

Ed Gale and Dick Belcher, both freshmen, have the comedy and the juvenile leads, respectively.

For Ripley:

Have you heard of the gay youth who got on the wrong train at the wrong station in Washington and got a free breakfast and free transportation to the right place?

Then there were the three New Hampshire songbirds who sang "On to Victory" in Times Square on New Year's eve and were arrested as Communists.

MRS. LUCINDA P. SMITH ADDRESSES COLLEGE WOMEN

The A. A. U. W. met at Mrs. Lucinda P. Smith's home last week. The evening was very enjoyably spent with an interesting reading of a paper entitled, "Classicist and Roman-ticist," by Mrs. Smith.

ternity, and a sergeant in the R. O. T. C.

"During the decade immediately following his graduation, he was continuously employed by the Worthington Pump and Machinery Corporation and through his technical training and inherent ability he reached a position of much responsibility which he was obliged to relinquish owing to the collapse of his health."

He is survived by a wife, Mrs. M. Pauline Morse, whom he married in 1919.

NEWS OF THE WOMAN'S CLUB OF DURHAM

The January general meeting of the Woman's Club of Durham was held Friday afternoon, January 8th, in the Community House.

Mrs. W. C. O'Kane, president, opened the meeting. There were several important items of business discussed.

Mr. P. G. Neserius, who was to have given an address on "The Influence of Public Opinion on International Affairs," was unable to be present, and his place was taken by Mr. Paul Schoedinger, who played Gilbert and Sullivan's opera, "Trial by Jury."

Mr. Schoedinger gave a brief history of the opera and explained, in his inimitable manner, the action as the records were played. He also played three records from "The Mikado."

Refreshments were served in the parlors by Mrs. Ed. Rassmussen, Mrs. E. P. Robinson, Mrs. W. H. Hartwell and Mrs. E. H. Rinear.

Art Department Meets

The Department of Art and Literature of the Woman's Club of Durham met at the home of Mrs. A. W. Johnson, January 6th. A short business meeting was held.

The program for the afternoon consisted of a paper on "Pottery," read by Mrs. Clara Flanders. It was both enlightening and enjoyable. She told how the growth of civilization from the earliest times could be traced by the pottery. Because the subject was so broad she confined her paper to British pottery. Beginning with a description of the Roman pottery she took up in turn Stone Ware, Slip Ware with its mottoes, Delft Ware from Holland, Salt Glaze, and finally, the beautiful Wedgewood.

This proved such an interesting subject that it was suggested the department take up the study of American Pottery in the near future.

Delicious refreshments were served by the hostess.

EDUCATION NOTES

Kappa Delta Pi held a meeting at the home of Professor Justin O. Wellman. Dr. Herbert F. Rudd spoke on the Manchurian situation.

A class for teachers only, has been organized by Professor Harlan Bisbee, under the name of Guiding Learning. Class meetings will be held regularly every Saturday morning.

CHI OMEGA NEWS

Rachael Bean of Biddeford, Me., Rose Carvel of Dover, Marian Berquist of Exeter, and Ruth Wallace of Rye were guests over the week-end at the Chi Omega house.

by William M. Stearns

Once again the coveted President Harding trophy, emblematic of winter sports supremacy in the annual College Week competition at the Lake Placid club, rests in the New Hampshire trophy room as a result of the efforts of Paul Sweet's Wildcats of the snow and ice.

Individual honors were heaped upon Edward Blood, who succeeded the famous New Hampshire trio of Michelson, Weston, and Pederson, as the winner of the Marshall Foch trophy annually awarded to the victor of the ski jump.

Coach Paul Sweet well deserves the title of New Hampshire's miracle man. Last spring his track team captured the New England title at Lewiston, in the fall his harriers romped home to victory in the New England's at Franklin park, and now with the coming of winter he produces a team which captures the Harding trophy.

Wayne Stevens, sensational Bridgton Academy senior, who has been named as one of the seven skiers east of the Mississippi, to take part in the Olympic tryouts at Canton, South Dakota, has announced his intention of matriculating at the University of New Hampshire in the fall. The reputation of Coach Sweet is undoubtedly attracting promising material in both track and winter sports to the University.

Assisting Coach Sweet is Albie Lazure, intercollegiate two mile snow-shoe champion, who is at present enrolled at the University as a graduate student. Lazure has been exceedingly prominent in collegiate winter sports circles and last year held the position of President of the Intercollegiate Winter Sports Union.

Edward Blood, holder of Marshall Foch trophy, is considered as a most likely prospect for the United States Olympic team, being one of the best all-around ski men in the country.

Word has been received from R. G. Sykes, athletic committee chairman of the University club, that the New Hampshire track team will compete in class A at the University club track meet which will be held February 20 at the Boston Garden. In the same class will be Harvard, Yale, Dartmouth and Brown, while such teams as Bates, Bowdoin, Maine, Amherst and Boston university will compete in class B.

The varsity basketball team opened its season in rather ragged fashion against the Alumni but displayed a marked improvement in its play against the Boston university Terriers.

B. U. used its much discussed player control system against the Wildcats, but somehow failed to be particularly impressive. It seems a bit unfair for a team to face not only its opponents but a professional coach as well. The constant defeats received during the football season did little save destroy the morale of the team and it is rather difficult to see just what benefit was derived.

Five times in the last eight years the University of New Hampshire has won the President Harding trophy which makes it a pretty good batting average for the home team.

Ernest Pederson is the only jumper to three times win the Marshall Foch trophy.

It is with a distinct feeling of sadness that we learn of the graduation of the one and only Ed Bromley. With his passing the University loses one of its most ancient traditions and venerable landmarks; its like losing "T" hall tower. Despite his valiant resistance the faculty insisted upon conferring a degree upon him.

Why is it that at every basketball game some bunch of croquet experts feels duty bound to get together and boo with much gusto the rulings of the officials? We suggest a severe case of the seven year's itch as a suitable Christmas gift for this brand of lily pusher.

THEMES PUBLISHED BY ENGLISH CLASS (Continued from Page 1)

material written in the class and is published for the benefit of the students enrolled in that class and members of the English department. In the preface to "Daily Themes" which is addressed to the class, Professor Towle states the purpose of publication "—by you and for you; common property of enjoyment in the years to come."

"Daily Themes" consists of 80 pages of daily impressions, each student in the class having one theme in the publication. Several additional themes were included at the end of the book. The English department wishes to emphasize the fact that "Daily Themes" is entirely a class publication and is not to be confused with the "Student Writer" which is published later in the year. Each student was supplied with three copies and anyone desirous of obtaining a copy may buy one from the students or from Professor Towle who has a few extra copies.

O'KANE - CAPELLE

Professor and Mrs. Walter C. O'Kane of Durham recently announced the marriage of their daughter, Elizabeth Wells, to Mr. Asher Capelle. Mr. and Mrs. Asher Capelle will be at home after February 15 in Albany, New York.

SYLVIA SIDNEY FEATURED AT LOCAL THEATRE FRIDAY

Rockcliffe Fellows, favorite of the old silent film days, who staged a talkie comeback recently in Paramount's "The Vice Squad," starring Paul Lukas, is again cast by Paramount to enact the important role of the political boss in "Ladies of the Big House" featuring Sylvia Sidney and Gene Raymond, which is the Franklin theatre's feature picture Friday. The picture is the story of two young lovers, who through association with gangsters find themselves framed on a charge of murder.

Fellows has a strong part in this picture, well suited to his talents. As the political boss playing a crooked political part in cahoot with a crooked district attorney, he gives a touch of modernity to the story that will be instantly recognized by those familiar with the municipal courts of some of the large cities. He has the opportunity and the talent to give a cynical touch to his role which otherwise is serious, but grimly tragic for the leading characters of the drama.

KITTEN HOOPSTERS OVERWHELM SANBORN

Coach Lundholm's Charges Win First Game of Season by Decisive Score of 36-11 at Gymnasium in Saturday Tilt

The New Hampshire Kittens opened their court schedule with a decisive victory of 36 to 11 over a small but aggressive team from Sanborn Seminary.

The playing of the frosh gave evidence of the short time they have had to practice previous to the game. Defensively the frosh proved very strong but their offensive power as a team functioned only spasmodically.

The playing of Walker and Funston was outstanding. Walker played a consistently good game while Funston's playing in the first half was merely that of an average center, but his reversible form in the second half vindicated that he has strong potential ability.

Coach Carl Lundholm used his entire squad in order to find out his best combination and the ability of individual players. He expects a marked improvement in offensive playing after the team has had the opportunity to gain practice. Little improvement is expected Saturday when the Kittens are host to Holderness School at Durham, as a number have been excused from practice during rushing.

Game One-Sided

The small but fighting Sanborn five did not furnish a test for the frosh. They were much smaller than their opponents and this disadvantage was evident throughout the game. Sanborn opened the game rather favorably for the frosh by shooting for the wrong basket, scoring the first two points for the Kittens.

A successful season is anticipated. Coach Carl Lundholm has picked his squad from an exceptionally large number of freshmen contestants. Charles Desmarais, Curtis Funston, Edward Mathewson, Arthur Morse, Kenneth McKinniry, George Murray,

OFFICERS ELECTED FOR OUTING CLUB

(Continued from Page 1)

of this, the club is making arrangements to hold figure skating, comic skating, and racing events.

The Carnival ball will be held in the gymnasium on Friday evening, January 29. Complete plans for this famous popular dance are not yet available, since its promoters are maneuvering to keep admission charges down lower than they have been in the past. The orchestra, however, has been engaged; Roy Lamson's Harvardians will play.

If Durham draws any more snow, there will be an inter-fraternity skiing contest. And, once again, if Durham draws any more snow, the plaque will be awarded to the house having the best exterior snow decorations.

No classes will meet after 12:30 on Friday, January 29, and the spirit of carnival will, without doubt, be in the air until Monday morning when the danger of cutting a five-dollar eight o'clock will automatically drop the curtain of study over the campus again.

Other features will be announced as they develop, and Durham is looking for such a week-end as in the past has proven the winter's big feature.

"Connie" Quinn, Moses Saliba, John Swiklas, Arthur Toll, Fred Walker, Roland White, Ford Stevens, Ronald Wilde, and Charles Wilkins comprise the squad. Foggerdy, an outstanding forward, was lost by the team because of scholastic difficulties. Charles Wettergreen is manager of the team.

The next game will be Saturday, when Holderness School visits Durham. The balance of the schedule consists of:

Jan. 23—Tilton School at Durham
Jan. 30—Kent's Hill at Durham
Feb. 6—Hebron Academy at Hebron
Feb. 10—Andover at Andover
Feb. 13—Nichols Jr. College at Durham
Feb. 20—Wentworth at Durham
Feb. 27—New Hampton at Durham
March 3—Dean Academy at Durham

KITTEN PUCKSTERS TO FACE LAWRENCE

Lack of Practice Handicaps Coach Croke's Charges in Coming Clash With Veteran Academy Sextet —Initial Contest Cancelled

A group of 40 promising and enthusiastic first year men reported to the freshman hockey coach, Harry Croke, the first week of this term, but the spring-like weather not only held up practice, but forced the indefinite postponement of the first game scheduled with Amesbury High school.

Coach Croke said that prospects of a crack hockey team seemed to be bright, the candidates showing a lot of pep and willingness to work from the beginning. However, hopes for a victory over the strong Lawrence Academy boys are at a low ebb because poor ice conditions for the last week and a half have limited practice, making the selection of the best possible combinations impossible.

The schedule for this season follows: Jan. 15, Lawrence Academy in Durham; Jan. 20, Andover in Andover; Jan. 23, Tilton School in Durham; Jan. 27, Boston University Freshmen in Durham; Jan. 30, New Hampton in Durham, week of Carnival; Feb. 2, Brighton Academy; Feb. 6, Hebron Academy; Feb. 10, Clark School. The latter three are to be played in Durham.

Miller Forecasts Successful Team

Numerous Veterans Augur Powerful Relay Quartet

University Club Games Feature of Indoor Track Season—Freshmen Clash With Exeter and Andover

Coach Miller predicts a successful season for his squad of winter track and relay men who have been working out on the board track on the other side of University pond. Although somewhat hampered by the loss of three of the outstanding men of last year's team, namely, Crosby, Richardson, and Harrington, the team as a whole is in much better condition than it was at the corresponding time last year, while the two mile team is showing up better than for the last three years.

The squad which is working out is the largest with which Coach Miller has had the opportunity to work. He expects that the resulting competition will bring out a prize-winning combination. For the Freshman relay team the outstanding candidate is William Short. Murray, Rines, Darling, Pike, and Carlen are the other possibilities.

In the varsity one mile relay Warren Pike and Guy Mann are leading the field with Toolan, Andrews, Thayer, Ahlgren, Jeffrey, Noyes, Whitney, and Crowell entered as other contestants.

DeMoulied and Noyes, two milers for the Blue and White team, are consistent winners in their event with Little, Benedict, Ahlgren, Cline, Allard, and Mackey comprising the rest of the field.

Track lettermen are the only men out for the sprints and 300 yard run. These are Pike, Clarke, and Cunningham in the first and Clarke, Cunningham, and Andrews in the second. Thayer and Whitehouse of the regular varsity are taking the hurdles

Winter Sportsmen Win Trophy Back

Blood and Downs Stand Out for Blue and White

President Harding and Marshal Foch Cups Brought to New Hampshire Again Fifth and Sixth Times Respectively

In the midst of the preparation and excitement of the coming Olympic Games to be held next February, the New Hampshire Winter Sports team won the eleventh annual College Week Competition held at Lake Placid on December 30 and 31, 1931, and January 1 and 2, 1932. By the victory New Hampshire won the President Harding trophy back from Dartmouth, who won it in 1929 and has held it since. The competition was very close between New Hampshire, Dartmouth, and McGill; the final issue remaining in doubt until the last event on Saturday. Dartmouth was leading at that time with 25 points, with New Hampshire one point in the rear and only the ski jumping event left to decide the winner. Edward J. Blood, Wildcat ski jumping ace, won the event with two leaps of fifty meters each (164 feet) from the Intervale Olympic jump. Not only did Blood clinch the meet and President Harding trophy for New Hampshire by his excellent performance, but won the Marshall Foch ski jumping trophy for 1932. One of the major factors in New Hampshire's victory is the proficiency of Coach Sweet's men in all of the various classes of events as shown by their placing in seven of the eight events, while Dartmouth and McGill placed in only four events apiece. Dartmouth scored all but three of her points on the ice and had she had a well balanced team like New Hampshire's, would have presented a serious menace to the Wildcats.

Blood Outstanding

In the skiing events New Hampshire and McGill shared the honors. F. B. Campbell of McGill won the trying fourteen kilometer ski race with a time of 1 hour, 3 minutes and 4.9 seconds. In this very exciting race he was very closely pressed by T. D. Mann of Dartmouth, J. D. Perley of Penn. State, and L. Ellingson of St. Olaf's. Edward Blood, by a beautiful performance, won the slalom race with the time of 29.75 seconds. T. Christianson also of New Hampshire, coming in second, time 30.2 seconds and G. Lumner and G. B. Fort, both of McGill, taking third and fourth places respectively. The one mile down hill ski race was also won by New Hampshire by the very narrow margin of 4/10 of a second; T. Christiansen was first, time one minute and 44.2 seconds; G. Sumner of McGill second, time one minute and 44.6 seconds; G. B. Jost and F. B. Campbell took second and third places respectively.

An illustration of the keen competition and skill of the individual participants in the events was well illustrated in the first race of the meet, the cross country ski race. Although F. B. Campbell of McGill won the first honors; his nearest three competitors were less than three-quarters of a minute behind him. Tom Mann of Dartmouth finished 14 seconds behind the winner, J. D. Perley of Penn. State was a half minute behind Mann, and L. Ellingson of St. Olaf's only five seconds behind Perley and a minute ahead of Blood of New Hampshire. Rarely in a race as long as fourteen kilometers do the four placing men finish so near together.

Dartmouth Takes Lead

Dartmouth took the lead in skating events. Jack Shea, North American speed-skating champion and outstanding candidate for the United States Olympic team, showed his capabilities by taking first place in the 440 yard skating race with a time of 37 seconds, and first place in the two mile skating event with a time of 6 minutes, 9.7 seconds. New Hampshire won 8 of her points on the ice. Bob Downs, one of the most promising of the sophomore material, took third place in the 440 event and fourth place in the two mile race. Mal Chase came in second in the two mile, and fourth in the figure skating.

One of the best individual performances on the New Hampshire team was the winning of second place in the two mile snowshoe race by Bill Anberg. Considering that this was practically his first race since learning to manipulate snowshoes, he ran an excellent race. The winner of the race, R. J. Goode, of McGill, likewise had never participated before in any major event.

Ski Jumping Climax

The climax of the four days of competition came in the ski jumping event. Dartmouth was leading New Hampshire by one point and McGill

(Continued on Page 4)

INTRAMURAL MEETS TO COMMENCE SOON

(Continued from Page 1)

the late afternoon on the freshman rink back of the gymnasium.

The dates for the boxing tournament have been set officially for January 18, 20, 22, 25. As was the practice last year the bouts will start promptly at seven o'clock in the evening, and will take place in the gymnasium.

The rules for boxing have been changed this year regarding intramural competition. The more important rules are as follows: (1) A team shall consist of at least three men in two or more weights. (4) A group may not have more than two contestants in each weight. (5) Contestants must weigh in not more than four hours or less than two hours before the first preliminary bout and before the subsequent matches. (6) All contestants must be examined by a doctor within four hours of entering the ring.

As usual the rules governing varsity boxing will hold concerning the intramural competition. The prices will be very reasonable this year.

So far, little time has been given to the winter sports and bowling program. Bowling will probably not be run off until much later in the term, though winter sports should be run off toward the end of the month. The battle for the winter sports trophy has been rather keen for the last few years. There is at present a tie for possession of the plaque between Phi Delta Upsilon and Theta Chi. Last year both teams scored the same number of points. It is also of further interest to note that both parties have won the trophy twice before, no other fraternity ever having won it.

PHI MU HOLDS VICTROLA PARTY AT CHAPTER HOUSE

Members of Phi Mu held the first victrola party of the winter term Friday night in their chapter house. A sleigh ride had been planned for the evening, but due to the lack of snow, had to be turned into an evening of dancing.

Wildcats Defeat Terriers, 28-18

Swasey's Quintet Opens Intercollegiate Season

Gormley and Conroy Lead Wildcat Attack Accounting for 19 Points—Captain Lowder of Boston University Outstanding Player

Led by John Conroy, brilliant guard, the varsity quintet opened the intercollegiate season Saturday at the University gymnasium by handing the Boston university Terriers their first defeat of the season, 28-18. The team showed a marked improvement over their opening game against the Alumni.

The game was rather slow throughout and was marred by numerous fouls. Gormley led the Wildcat attack with 12 points, followed by Conroy with 7. Captain Lowder of the Terriers accounted for 12 of his team's 18 points. The Terriers who invaded the domain of the Wildcats with an enviable record of four straight victories failed to function as a unit and rarely penetrated the New Hampshire defense. The game would have been a walk-away but for the sensational shooting of the Terrier captain.

Led 16-11 at Half

After playing on nearly even terms for the first few minutes, the Wildcats began to click, and led 16-11 at the half. Conroy and Gormley made nearly all of the points. The Wildcats aided by Gormley's sensational shooting kept on increasing their lead in the second half. The New Hampshire team functioned well throughout the entire game, while individual honors went to Gormley and Conroy.

The team opened its season January 5 against the Alumni, and emerged victorious, 37-25. Bruce Koehler, flashy sophomore forward, caged seven baskets for the varsity, his all around play also was a feature. The team was rather ragged, but played well on the whole. The victors led at half time, 23-11. "Windy" Davis, (Continued on Page 4)

FRESHMEN FREE TO RETURN TO BOOKS

(Continued from Page 1)

compiling figures that would infuriate a C. P. A. Conversation has left no subject untouched, no question of the day unsettled. From a multitude of associations, comparisons and appraisals, the question of what fraternity to join, if any, is left to the bewildered freshman.

Yet he will survive in spite of it all. He will find, as he has hoped, that the men whose fraternity he rejected will still speak to him. If he pledges he will not feel so radically different. If he decides not to join, he will not be reviled or ostracized. He will discover that he did not lose so much class work either; perhaps the "profs" knew how it was. One distinct sensation will stand out above all others: he has become a college man. He feels it, he looks it; unconsciously he has "put away childish things." Others on the campus might say he has "come out of the fog."

C. N. ELLIOTT ELECTED TO HIGH POSITION

(Continued from Page 1)

vealed during his sophomore year. As a junior, he was editor-in-chief of the Granite, vice-president of the student council, president of the Nu Beta chapter of Phi Mu Delta, president of the student Y. M. C. A., and gained membership in Iota Chi journalistic society and Casque and Casket.

In his senior year, Elliott was promoted to president of the student council, member of Phi Kappa Phi, Senior Skulls, Book and Scroll, was a member of the University social committee and an honor student in history.

At commencement, he was awarded the Hood Achievement Medal for all-round accomplishment, was class historian, and graduated seventh in a class of 243 with a four-year average of 88.5.

Elliott became national president of Phi Mu Delta at the annual conclave held in New York recently, an honor in which the University campus, as well as he himself, will share.

But the telephone conversation must not freeze

A sudden cold snap might seriously interfere with long distance telephone service were it not for the studies made by Bell System engineers.

They found that temperature variations within 24 hours may make a ten-thousandfold difference in the amount of electrical energy transmitted over a New York-Chicago cable circuit! On such long circuits initial energy

is normally maintained by repeaters or amplifiers, installed at regular intervals. So the engineers devised a regulator—operated by weather conditions—which automatically controls these repeaters, keeping current always at exactly the right strength for proper voice transmission.

This example is typical of the interesting problems that go to make up telephone work.

ALPHA NU CHARTER PRESENTED BY TEKE (Continued from Page 1)

Robert E. Mauricette, '32; and Pylores, Edward Handschumaker, '32. Professor Herbert F. Rudd was chosen as faculty advisor, and with Henry S. Clapp, Ralph A. Brown, Paul H. Blaisdell, and Bert E. Huggins will comprise the Board of Control. Saturday afternoon the first exemplification of the ritual took place in the trophy room at the Commons.

Commons Scene of Formal Dance

In spite of the snow storm which rapidly turned into a blizzard, the chapter members braved the elements to import companions for a formal dance which was held in the Commons organization rooms Saturday evening. The hall was decorated with potted ferns and palms, the chapter flags, and red carnations. In the receiving line were John MacLellan, Alice Towle, Eugene Beach, Dorothy Rathbone, Harrold Flint, Mrs. Florence Blaisdell, Willis Rice, Jean Rathbone, Henry Clapp, Evelyn Brannen, Donald Lansing, Anne Meader, Herbert Rudd, and Mrs. Anna Rudd. Refreshments of punch and fancy ices were served.

Sunday morning the meeting was opened by the officers-elect and the remainder of the session was spent with a continuation of the lectures, and discussions. In the afternoon at a formal meeting the final exemplification of the ritual, the installation of officers, and the presentation of the charter by Grand Prytanis Beach concluded the actual installation ceremonies.

Interfraternity Banquet

Sunday evening, in the University Dining hall, a formal installation banquet was held which was attended by President Edward M. Lewis, Dean Norman Alexander, Secretary Edward Blewett, representatives of the various fraternities, and the charter members of Alpha Nu chapter. Paul H. Blaisdell acted as toastmaster. John MacLellan welcomed the group and toasts were heard from Dean Alexander, President Lewis, Willis Rice, Eugene Beach and Harrold Flint. The traditional Teke horseshoe which is passed on to each new chapter at its installation was presented at that time. The *Alpha Nu Pledge*, composed by the chapter, was formally introduced and the banquet was concluded with the singing of *Alma Mater*.

CHRISTIAN WORK

A program of considerable interest to students of political science, sociology, history, or philosophy will be presented in the Commons organization rooms on Wednesday, January 20, at 4:15 p. m. Louis P. Gregory of the National Committee for Racial Amity will speak on the "Improvement of Race Relations." The meeting will be entirely informal. Students and professors and others who may be interested and welcome to attend.

Sunday evening the Community house offers an excellent program of organ music rendered by Walter S. Jenkins at 7:45. All music lovers should find this entertainment excellently suited to their tastes. The program is pleasantly varied and contains the following selections: Group I—*Prelude No. 8 (A minor)* by Bach, *Air (Caro Mia Ben)* by Giordani, *March Pontificale* by Ferrari; Group II—*Persian Suite* by Stoughton composed of *The Suite of Jamshyd*, *The Garden of Iram*, and *Saki*; Group III—*Serenade* by Gounod, *Humoresque* by Lemare, *Hymn to the Sun* by Rimsky-Korsakoff, and *Piece Heroique* by Franck.

At the regular weekly meeting of the Y. W. C. A. at the Commons organization rooms at 7:00 p. m. Monday, Dean Charles H. Pettee will tell of the trip which he and Mrs. Pettee made to Hawaii last summer. The narration will be accompanied and illustrated by stereopticon slides.

The efforts of the Y. W. C. A. and those students who helped in preparing toys, clothing, and food for distribution among the children of those men now in our state's prison, was very richly rewarded. Letters were received from the chaplain and some of the prisoners thanking the girls for their really Christian work in this matter.

A Y. M. C. A. deputation team composed of Wayne S. Ricker, Maurice A. Kidder, Charles A. Blaisdell, and Charles E. McNally journeyed to Brentwood last Sunday.

CHILDREN OF MEN IN OUR STATE PRISON (Continued from Page 1)

chocolates! "Who sent 'em, Mother? Did Daddy send 'em, Mother?"

"No, Sonny, Santa Claus sent these to you for Christmas. No, now let's be generous and let Tubby and Terry have some. Jimmy bring that game here a moment."

"Will Santa Claus send Daddy some presents, too, Mother?"

A man in a gray suit with a number on his chest eagerly reading a letter from a loyal little wife struggling to make ends meet and give four little chaps a fair start in life—"Jerry was so pleased with the checker board . . . the boys enjoy games so much now . . . they had more fun with the chocolates wrapped up like gold pieces. . . . Would you please let me know who they come from so that we may write a thank you?"

The man sat with vacant eyes and a limp hand holding the written sheet. "Those packages were from Box—, that's the Chaplain. I wonder . . . Gee, what a break for the kids."

He found out who sent them and sat down to a borrowed typewriter and tried in a simple, but what eventually was an extremely touching, letter to thank the considerate people who remembered that those little ones deserved a break and some happiness independent of the fact that their dad was a criminal—no not that—but he was in the prison.

The chaplain received a letter from No. — who wanted to thank him for the gifts. The letter was two long pages of extended gratitude. The warden couldn't possibly transfer that feeling to another missile, so he enclosed it with a short personal message to the donors.

A group of girls of the University of New Hampshire Y. W. C. A. were reading the pathetic thank you of that imprisoned man. The picture of the happiness of four little boys on Christmas passed the screen of their imagination. And not one of the group denied the fact that the results were not worth twice the effort. The sense of reward was immeasurably swelled when the screen of their imagination showed one hundred such happy youngsters all over the state.

Such is the work which was done by the University Y. W. C. A. this year. We have reason to be mighty proud of that organization.

WILDCATS DEFEAT TERRIERS, 28-18 (Continued from Page 3)

"Dutch" Dresser, and "Wop" Taylor played well for the Alumni.

The next game is with the strong Northeastern team at Boston, January 16. Northeastern is undefeated to date and has one of the strongest teams on the New Hampshire schedule. Northeastern has a slight edge as they have played as a unit in four games, while the Wildcats have only played two.

WINTER SPORTSMEN WIN BACK TROPHY (Continued from Page 3)

was third, five points behind Dartmouth. The conditions for jumping were especially hazardous with a blinding snow driving into the faces of the contestants. Edward J. Blood won the event with two beautiful jumps of 50 meters each, thus raising New Hampshire's final score to 29 points bringing the coveted President Harding trophy back to N. H., and winning the Foch trophy for ski-jumping. Blood's form in his two jumps was almost perfect and it was a good thing that it was, because L. Ellingson of St. Olaf's made two jumps of 49 and 51 meters respectively being deficient only in form. Ellingson, 1929 winner of the Foch trophy and former inter-collegiate jumping champion, is also a candidate for the U. S. Olympics team. The coming tryouts competition will be very keen between he and Blood for a berth on the team in the combined ski jumping and cross country skiing events.

This year's victory again shows the prominence of New Hampshire in the Winter Sports field. Since 1924, when the Blue and White first entered the College Week competition, the Wild-

MILLER FORECASTS SUCCESSFUL TEAM (Continued from Page 3)

while Baker and Learmouth are putting the shot. Pike, Clarke and Cunningham are also practicing on the broad jump. Through the kind cooperation of those in authority at Phillips-Exeter academy some of these men will go to Exeter quite often to practice in the pit there.

The schedule which the teams will follow has five meets for each the varsity and freshmen: Jan. 30, Prout Games, Boston; Feb. 6, Millrose Games, New York City; Feb. 13, Boston Athletic Association, Boston; Feb. 20, University Club, Boston; Feb. 27, New York, Knights of Columbus (Pending), New York City.

The freshman schedule is very similar: Jan. 27, Exeter, Durham; Jan. 30, Prout Games; Feb. 3, Andover, Durham; Feb. 13, Boston Athletic Association; Feb. 20, University Club.

cats have won the President Harding trophy five out of eight times; and the Marshall Foch trophy six out of nine times. Pederson, former inter-collegiate jumping champion, won the latter trophy three times in three successive years.

INFIRMARY OPENS EARLY IN APRIL (Continued from Page 1)

tic will be a naturalistic setting, the natural surroundings being changed as little as possible so as to retain the rolling ground forms typical of old New England. The front will be terraced near the building, and another terrace at the rear will be one of the most attractive features of the whole infirmary. Here patients may sit when the weather permits and admire what is considered the best view from the building, down into the natural amphitheatre below. Shrubbery will be planted in various places, and there will probably be a low hedge around the building.

The new infirmary, which will have a normal capacity of about 30, will be available for the students of the University, and, according to the provisions of the donor, the members of the faculty and their families.

CAP AND GOWN SPONSORS FIRST DANCE OF THE TERM

Cap and Gown sponsored the weekly informal held at "T" hall Saturday night. The dance was in the form of a Sport's Dance and appropriate refreshments in the form of hot-dogs were sold by Charles Wettergreen. The College Inn orchestra furnished the music for the seventy-five couples who were present. Mr. and Mrs. Bradford McIntyre and Mr. and Mrs. Towle were in the receiving line.

Cap and Gown is making plans to furnish something long needed on this campus—a source of etiquette information for campus women. On other campuses this has been most successfully carried out by issuing a small booklet, a copy of which is sold to each woman on registration day.

A similar plan is to be followed by Cap and Gown. It was to raise money for this that this dance was sponsored.

BEST FOR ALL!

Economical in price—average of 29c per meal.

Excellent quality—only the highest grade food served at our table.

Two types of meal tickets—the \$6.00 ticket with 21 meals, to be taken at the option of the holder; and the Cafeteria ticket, punched for the amount on the tray.

Prompt service—a personnel interested in satisfying the taste and desires of our patrons.
